QVM BULLETIN: Q-344R1 DATE: 26 / February / 2024

ACCESSING VEHICLE INTEGRATION SYSTEM 1.0 DOCUMENTATION AND PROJECT EDITOR SOFTWARE

REVISION	UPDATE	REVISION DATE
Q-344R1	Change naming nomenclature	26/February/2024
Q-344	Initial release	30/November/2021

MODEL(S) AFFECTED:
SUPER DUTY, TRANSIT, and E-SERIES - All model year vehicles that have the VEHICLE INTEGRATION SYSTEM 1.0 as an option.

ISSUE / DESCRIPTION:

This bulletin is meant to provide guidance to Non-Fleet Ford Commercial Vehicle Customers (Upfitter or End-User) without a valid FIN code on how to obtain Vehicle Integration System 1.0 software tool. The Vehicle Integration System 1.0 software tool will be comprised of Project Editor, User's Manual and Instructions - this will provide the Non-Fleet Ford Commercial Vehicle Customer the necessary Vehicle Integration System 1.0 application and/or configuring functionality needed.

NON-FLEET CUSTOMER DOWNLOAD INSTRUCTIONS:
The Vehicle Integration System 1.0 is configured using the Project Editor software. A copy of the Project Editor (with supporting files) can be obtained from the selling Ford Dealer. The Non-Fleet Ford Commercial Vehicle Customer will be required to provide a method of software storage/transfer by either providing a suitable thumb-drive or a large file transfer site (i.e., File Transfer Protocol, SharePoint, Cloud File Share Site, etc.), this will allow the Ford Dealer to download the required Vehicle Integration System 1.0 software tool.

NOTE TO DEALERS:
Attention: Non-Fleet Ford Commercial Vehicle Customers without a valid FIN code do not have direct access to the Vehicle Integration System 1.0 software tool that is located on the www.fleet.ford.com website. If a Non-Fleet Commercial Vehicle Customer requires Vehicle Integration System 1.0 software, the selling Ford Dealer should provide the Vehicle Integration System 1.0 software tool by following this process:

1. Log into www.fleet.ford.com site with the required credentials
2. Search for Vehicle Integration System
3. Go to the Vehicle Integration System 1.0 access page and select the TERMS OF AGREEMENT. Accept and print a copy of TERMS OF AGREEMENT (this action will allow access to the required Vehicle Integration System 1.0 software downloadable files on the site)
4. Have the Commercial Vehicle Customer sign and date the printed copy of TERMS OF AGREEMENT, and the Ford Dealer is to retain the signed record copy
5. Download Vehicle Integration System 1.0 Software (Note: software is large file size and may require some time to download.) The Ford Dealer is to then provide the Vehicle Integration System 1.0 Software files to Commercial Vehicle Customer via the storage method described above.

Refer to the Body Builder Layout Book for additional guidelines and recommendations. If you have any questions, please contact the Ford Body Builders Advisory Service as shown in the header of this bulletin.
